SUMMARY

Motivated engineering student with a solid foundation in software development, gained through academic projects and internship experience. Proficient in web development, android application development and web design, with strong skills in time management and collaborative teamwork.

EDUCATION

The Faculty of Electrical Engineering, Computer Science and Information Technology

- *Bachelor of Computer Science (2021-2024)*
- *Bridging Year for Master's Programme (2024-2025)*
- *Master's Degree (2025 - present)*

EXPERIENCE

L2 AUTOMATION ENGINEER INTERN - Danieli Systec

May 2026 - June 2026

- Developed desktop applications in C# and WPF for managing industrial automation systems, communicating with PLCs, in a team of 3
- Implemented the WPF frontend for an Electric Arc Furnace management application
- Built the backend for a water tank management system: repository layer for SQL Server, REST API endpoints, input validation, and alarm handling logic

SOFTWARE DEVELOPMENT INTERN - Mono d.o.o.

Feb 2024 - Mar 2024

- Developed a full-stack web application for Sports and tournament management using C# (.NET) for the backend and React for the frontend
- Collaborated in a team of 4 using Git and code reviews
- Implemented frontend views and CRUD functionality for the Players and Profile module, contributed to the Tournaments features

PROJECTS

HumanForHuman (React, Node)

- web app connecting donors with people in need

SportzHunter (.NET, React)

- full-stack web app for discovering sports events

My Fitness Diary (Kotlin, Jetpack Compose)

- mobile app for tracking calories and fitness goals

Mental Health Risk Prediction (JavaScript, Azure ML)

- web application that assesses potential mental health risk based on digital habits, lifestyle, and self-reported state

EV Market Trends Visualization (JavaScript, D3.js)

- interactive data visualization dashboard presenting trends in the electric vehicle market

Video Store Application (WPF, .NET)

- desktop application for managing video store operations, including inventory, rentals, and customer records

HONORS & AWARDS

- *Award for academic excellence, FERIT 2024*

SKILLS

Languages:

- *C#*
- *JavaScript*
- *HTML, CSS*
- *SQL*
- *Kotlin*

Frameworks:

- *React*
- *.NET*
- *WPF*
- *Jetpack Compose*

Tools:

- *Git*
- *Azure*
